Dear Chris

Fishpool Garden

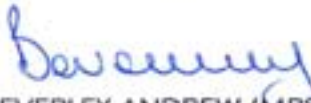

On behalf of the Trust I would like to offer our very grateful thanks to your company for providing such a beautiful garden in the grounds of the hospital. The idea of organising the schools competition added further interest, and involved other sections of the community in the life of the hospital.

The garden itself has certainly improved a somewhat dull part of our site and now enhances perfectly the rest of our gardens in the top half of the site. I am sure that the patients and staff will delight in sitting in the garden when we get some summer weather and even during poorer weather the patients in the new development wards and the gynaecology ward have a wonderful view looking down on the garden.

Please pass on our thanks to the gentlemen who actually did the work - I know they worked in some very difficult conditions.

With many thanks and kind regards.

Yours sincerely

BEVERLEY ANDREW (MRS)
